PUBLIC CONSULTATIONS

An aerial watercolor illustration of Lakeport Beach. The top of the image shows a wide, sandy beach with several people and small boats in the water. Below the beach is a green grassy area. The middle section is a semi-transparent white box containing the title and agenda. The bottom and right sides of the image show a dense residential neighborhood with various houses, trees, and streets.

ECONOMIC STUDY

Tax Revenue

- \$4.3M new annual revenue for Township and County

Township Development Charges

\$10,205 per unit

\$8.2 million total to Township

County Development Charges

- \$3,289 per single-detached unit
- \$2,569 per townhouse unit

\$2.3 million total to County

Water Servicing

- On-site water supply system
- \$8.1-\$11.1 million capital cost
- Developer covers capital cost of the system

Wastewater Servicing

- On-site treatment plant
- \$9.1-\$11.6 million capital cost
- Developer will cover capital cost

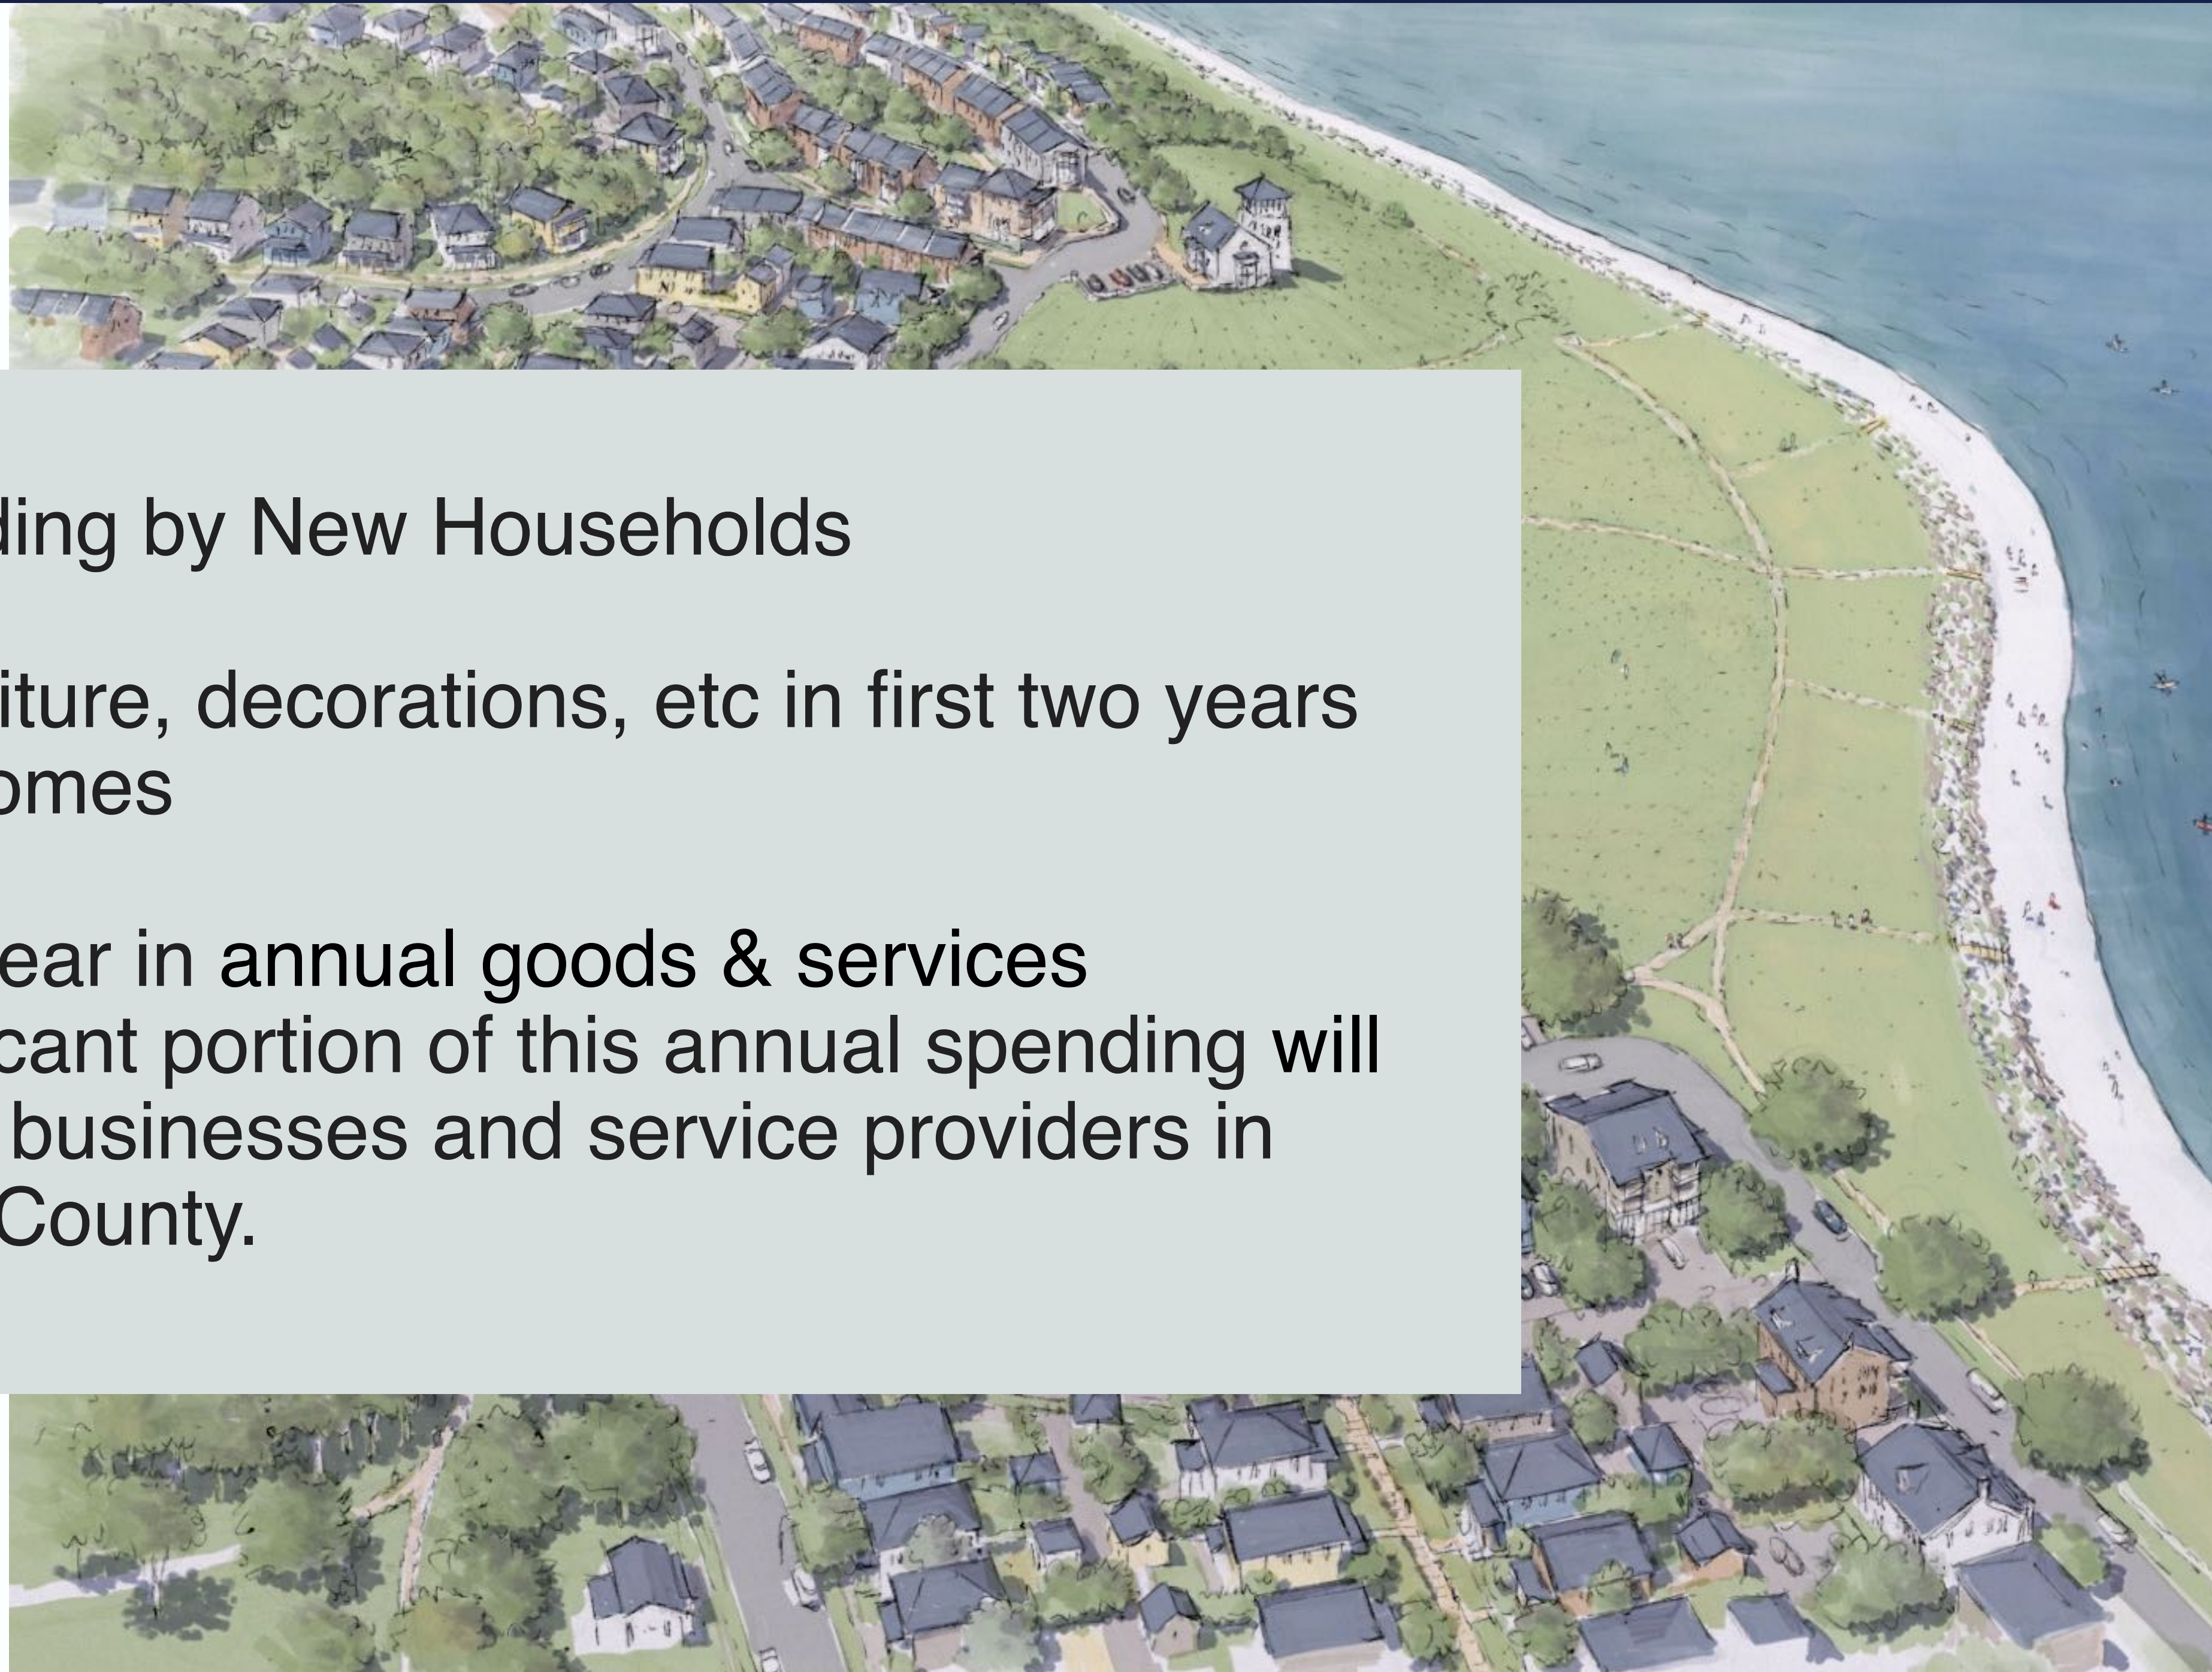

- Only users of the system pay to operate and maintain
- Developer pays for all capital costs
- Annual operation cost: \$569,600
- Annual lifecycle cost: \$256,500
- Total household cost: \$1,033/year or \$86/month

Employment

- 2,080 person-years of employment during the construction of the project
- \$97 million in wages over the construction period

Annual Retail Spending by New Households

- \$3.6 million in furniture, decorations, etc in first two years of occupation of homes
- \$39.5 million per year in annual goods & services spending. A significant portion of this annual spending will be done at stores, businesses and service providers in the Township and County.

COMMUNITY BENEFITS

LAKEPORT

— BEACH —

Economic Opportunity

- More housing means more residents to support existing local businesses, start new businesses, create jobs
- Construction of Lakeport Beach will support existing and new local jobs in trades and suppliers
- Jobs provide an economic future for young people
- Housing options + employment options = economic growth

LAKEPORT

— BEACH —

Improved affordability means

- 10% of Lakeport Beach units will be at least 10% less than market prices
- Broad mix of housing options from small cottages to apartments to townhomes to a wide variety of single family homes

LAKEPORT

— BEACH —

Broad mix of housing options means

- Seniors can stay in the community
- Young people can stay in or return to Alnwick/Haldimand and Northumberland County
- Healthier, more sustainable communities

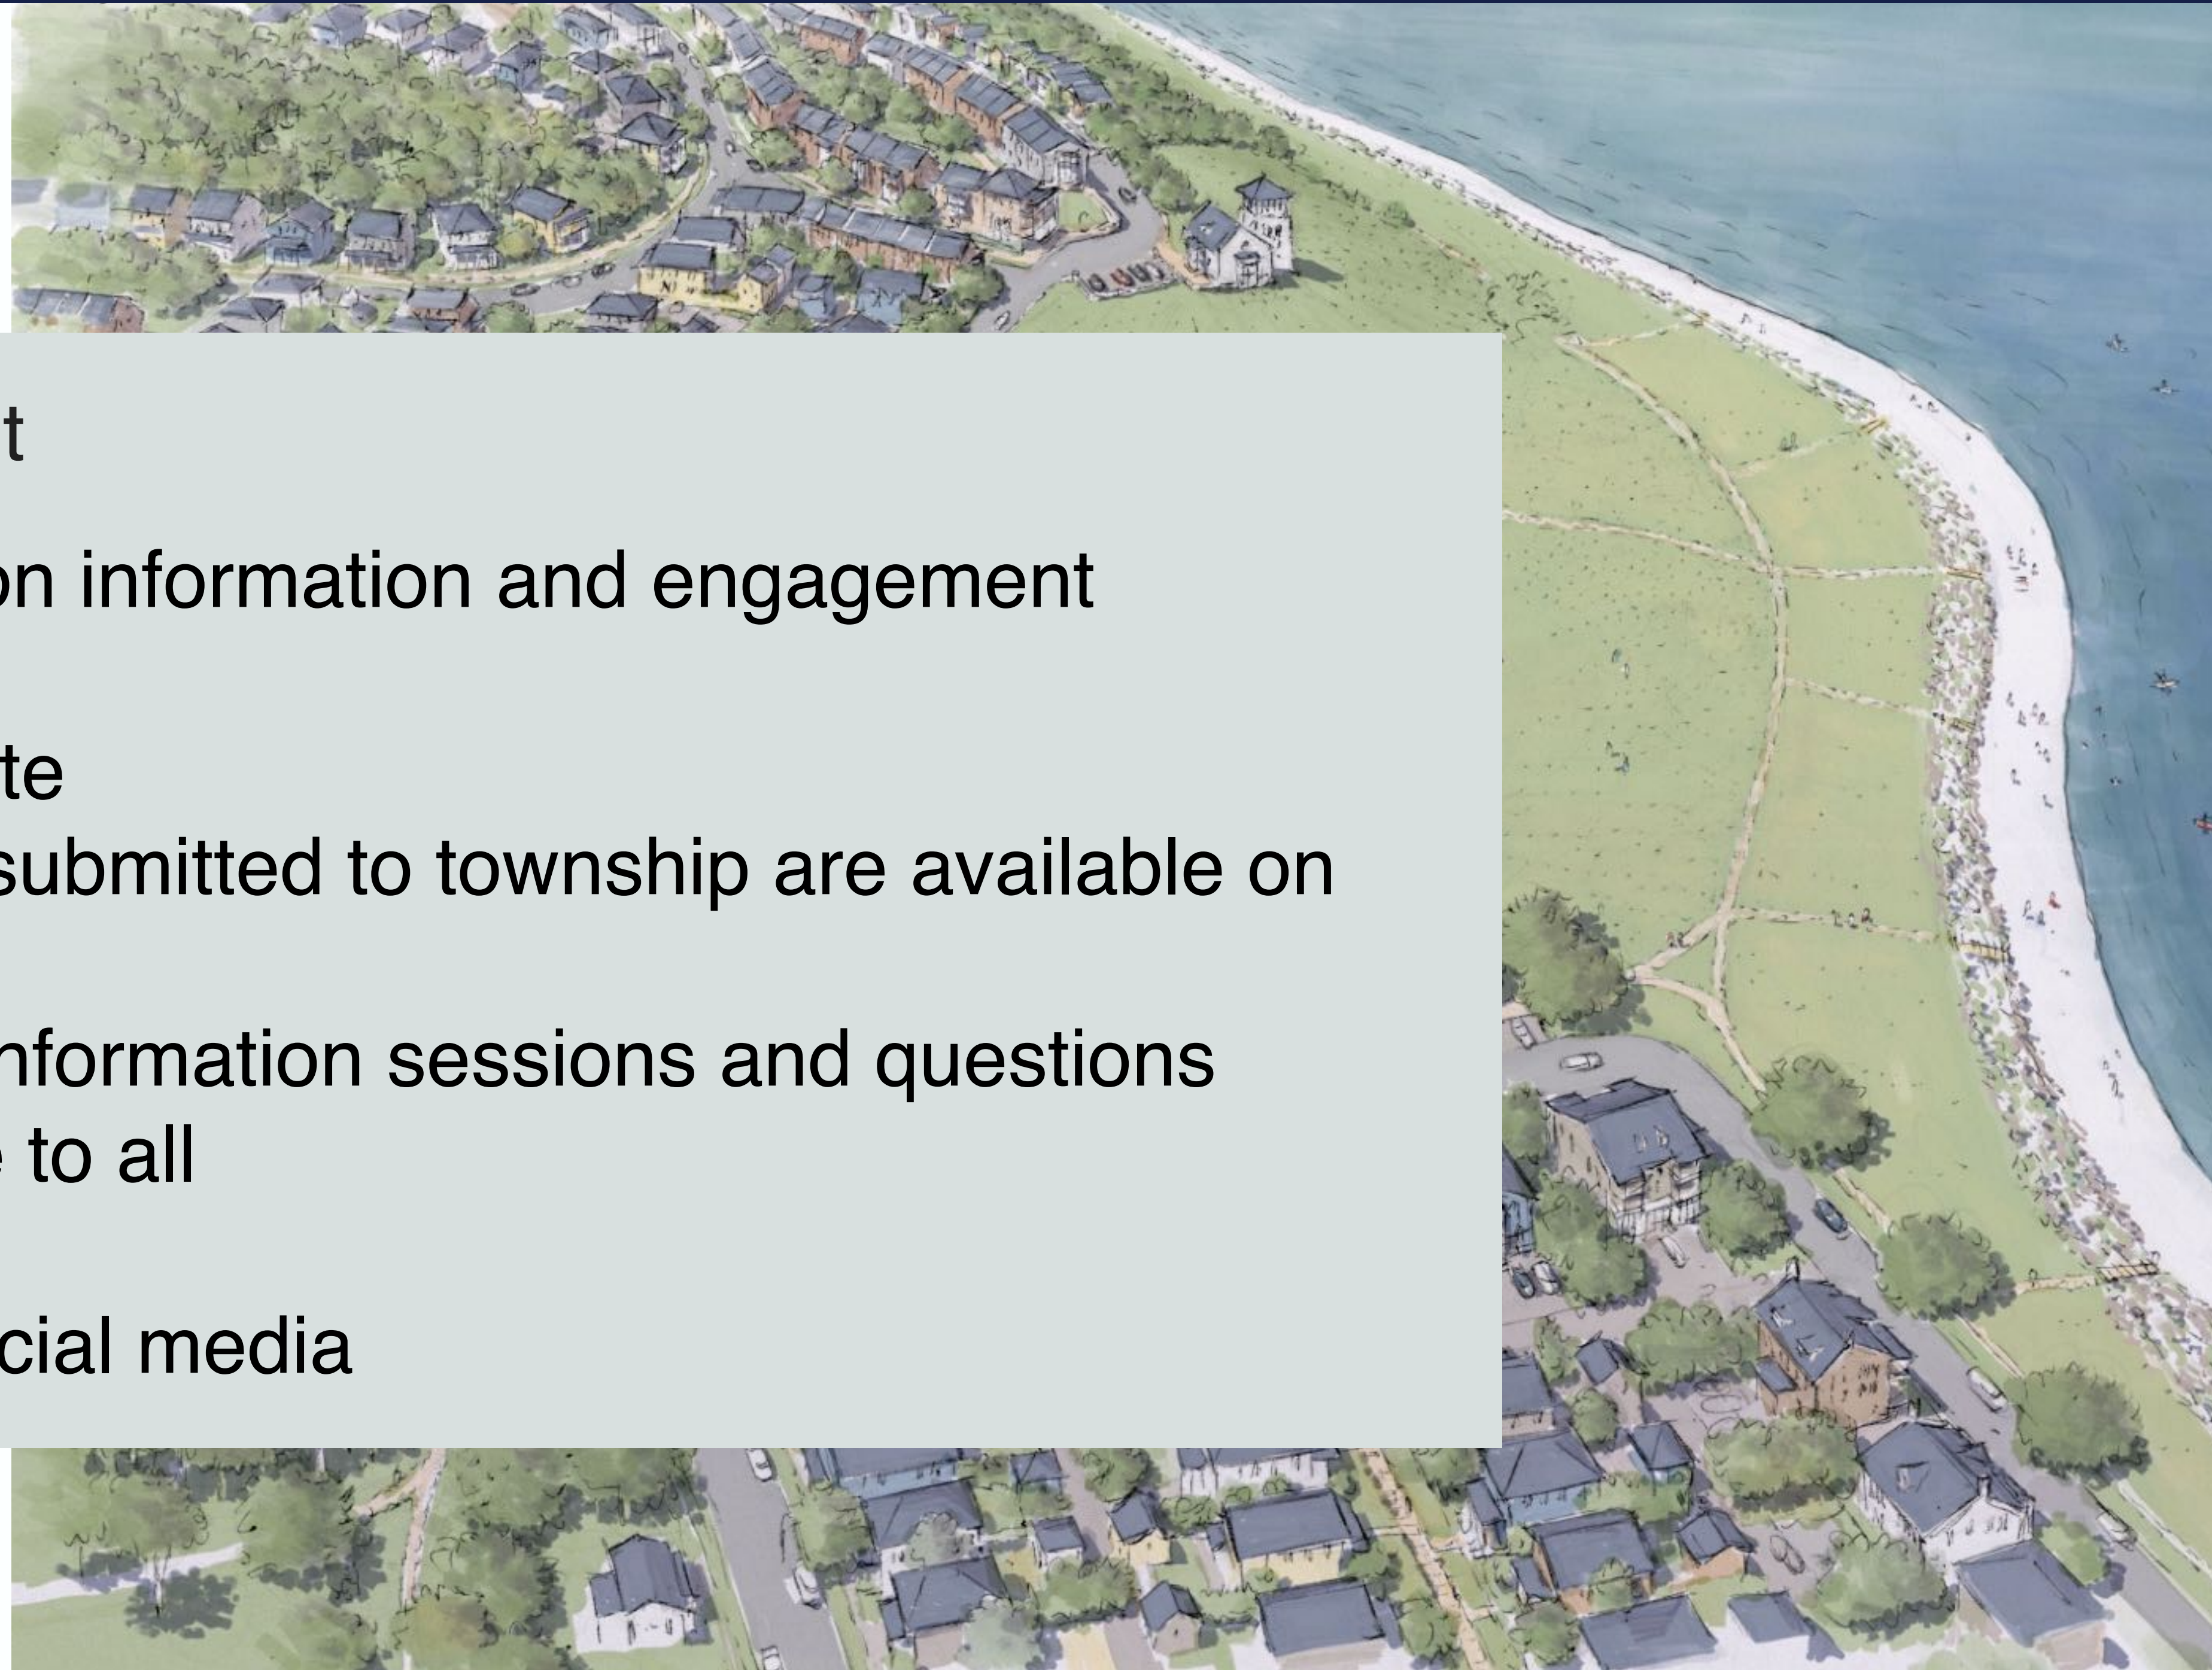

LAKEPORT
— BEACH —

COMMUNITY ENGAGEMENT

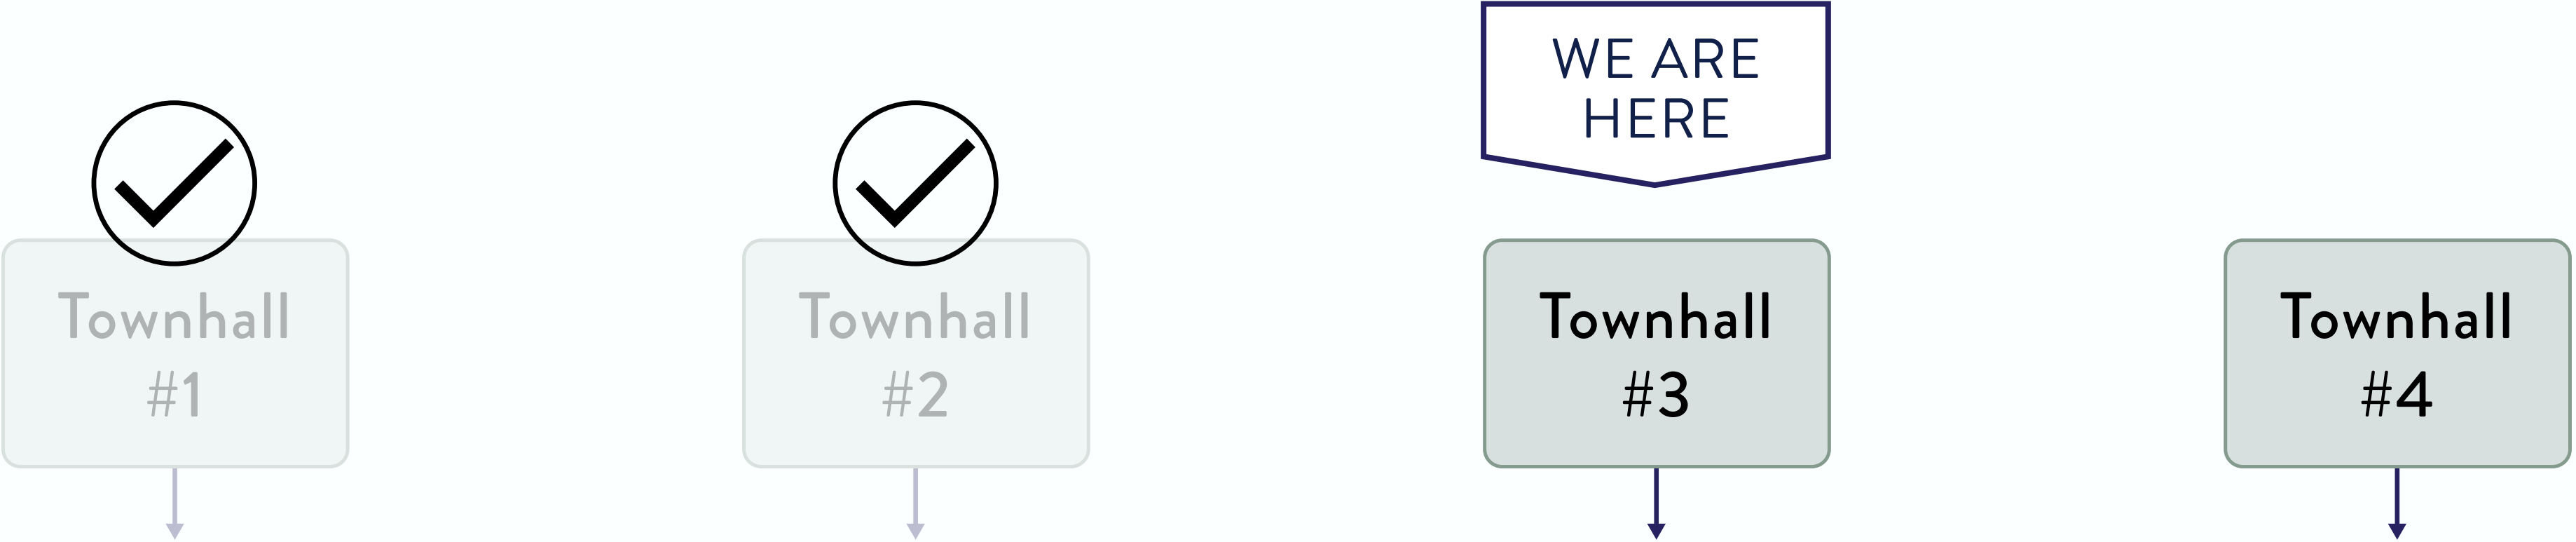

LAKEPORT

— BEACH —

Ongoing Engagement

- Online and In-person information and engagement sessions
- Informational website
 - All documents submitted to township are available on website
 - Summaries of information sessions and questions asked available to all
- Phone surveys
- Fully responsive social media

COMMUNITY ENGAGEMENT & INPUT SESSIONS

*EA: Enviromental Assessment Process

LAKEPORT
— BEACH —

CONCLUSION

LAKEPORT

— BEACH —

- All benefits outlined are unique to Landlab proposal
- Creates a substantial tax surplus that allows support for existing residents and programs
- Takes pressure off farmland by concentrating development on land already slated for housing
- Environmentally, economically and socially sustainable

LAKEPORT

— BEACH —

- Only Lakeport Beach residents will pay water, and wastewater infrastructure
- At the same time, they will pay more property taxes than it costs to service them
- It is a project which will help to reinforce a sense of community, by accommodating residents of all types – young, family-age, and elderly

LAKEPORT

— BEACH —

**Lakeport Beach is a once in a
generation opportunity for
Northumberland County and
Alnwick/Haldimand**

LAKEPORT

— BEACH —

An artistic rendering of a suburban street scene. The top half shows a clear blue sky with a large green tree on the left. The middle section is a semi-transparent white band containing the title. The bottom half shows a street with parked cars, a grassy area with people, and two cyclists riding on the road.
